

# Declaration of freedom and sovereignty

- I hereby decree my personal freedom to live abundantly with full awareness.
- I do not consent to allowing any being, faction, entity, group, organization or affiliation on this planet or in any other realm to siphon or use my energy in any form for any reason that I have not authorized.
- I cancel any and all prior agreements, contracts or treaties that I may have willingly or unwillingly participated in and declare them to be null and void.
- I declare that my meditations and energy work to expand my consciousness will remove any and all negative attitudes, entities and emotions that are preventing me from living my best life in this and all future reality fields.
- I declare that I am willing and able to stand in my power, accept my abilities as they are today and work toward becoming my greatest version as a true human.
- I declare full ownership and freedom of my body, mind, soul, spirit and consciousness and am responsible for my own development and future contributions to humanity.
- I choose to create my own reality. I use and develop my higher order senses to make contributions that benefit myself and others.
- I stand free and sovereign to live my best conscious coherent life now and in all future lifetimes.
